

Wiedemeyer

Your Partner for Logistics

The transportation of goods, equipment and machines, which show exceptional dimensions or weights and which should be moved properly and on time according to your requirements, is a challenge we face every day anew with enthusiasm and expertise. Up to 250 tons, we transport for you across Europe.

We also have many years of experience in the transportation of equipment charges under tarpaulin up to 5 meters wide, 4 meters high and weighing up to 60 tons.

- Special and heavy transports up to 250 tons
- Plant and machine transports up to 250 tons across Europe
- Semi-trailer / Low-bed trailer / Vessel decks / Roller combinations / Tele trailer / Trailer axle
